

regarding the issue affecting the future of K-Love. I listen to this station every day and when we have fellowships at our Church. This is the only station that provides Christian music 24/7 in our area, it would be awful to loose that. I believe that the service that KLove provides to our community is an open line always for prayer requests, great music with no interuptions and Christian DJs to listen to. It also keeps us informed of what is happening around us in the world.
